## SERENGETI NATIONAL PARK

Popular the Serengeti might be, but it remains so vast that you may be the only human audience when a pride of lions masterminds a siege, focused unswervingly on its next meal. It has scheduled flight routes throughout the National park served with several notable airlines.

There are daily scheduled flights linking key tourist gateways to various destinations and popular locations in Tanzania, including the game parks and the islands of Zanzibar, Pemba and Mafia. Masero Tours has agreements with local air transportation companies, operating charter and scheduled flights, to guard against unnecessary price fluctuations. Most game parks and towns have air strips accessible by smaller planes.

### Airport Service Tax

The Tanzanian Government has mandated an airport service tax for all passengers embarking on a flight from a Government airstrip; that is most tarmac airstrips in Tanzania, except a few privately owned ones and bush airstrips in national parks and game reserves.

## Safety Fee

The Tanzanian Civil Aviation Authority (TCAA) has also been authorized by the Government to collect a safety fee which goes to cover the costs of air traffic control and managing the airspace.

## Taxes in Coastal tickets

The payable amount of taxes is calculated and added to the cost of the ticket automatically every time a ticket is issued. That means that, should any amendment occur to a confirmed booking, the value of the taxes could change depending on factors beyond the control of Coastal.

*Please note that taxes may also be subject to currency fluctuation.*

## Charged amounts

The applicable taxes currently sum up as follows:

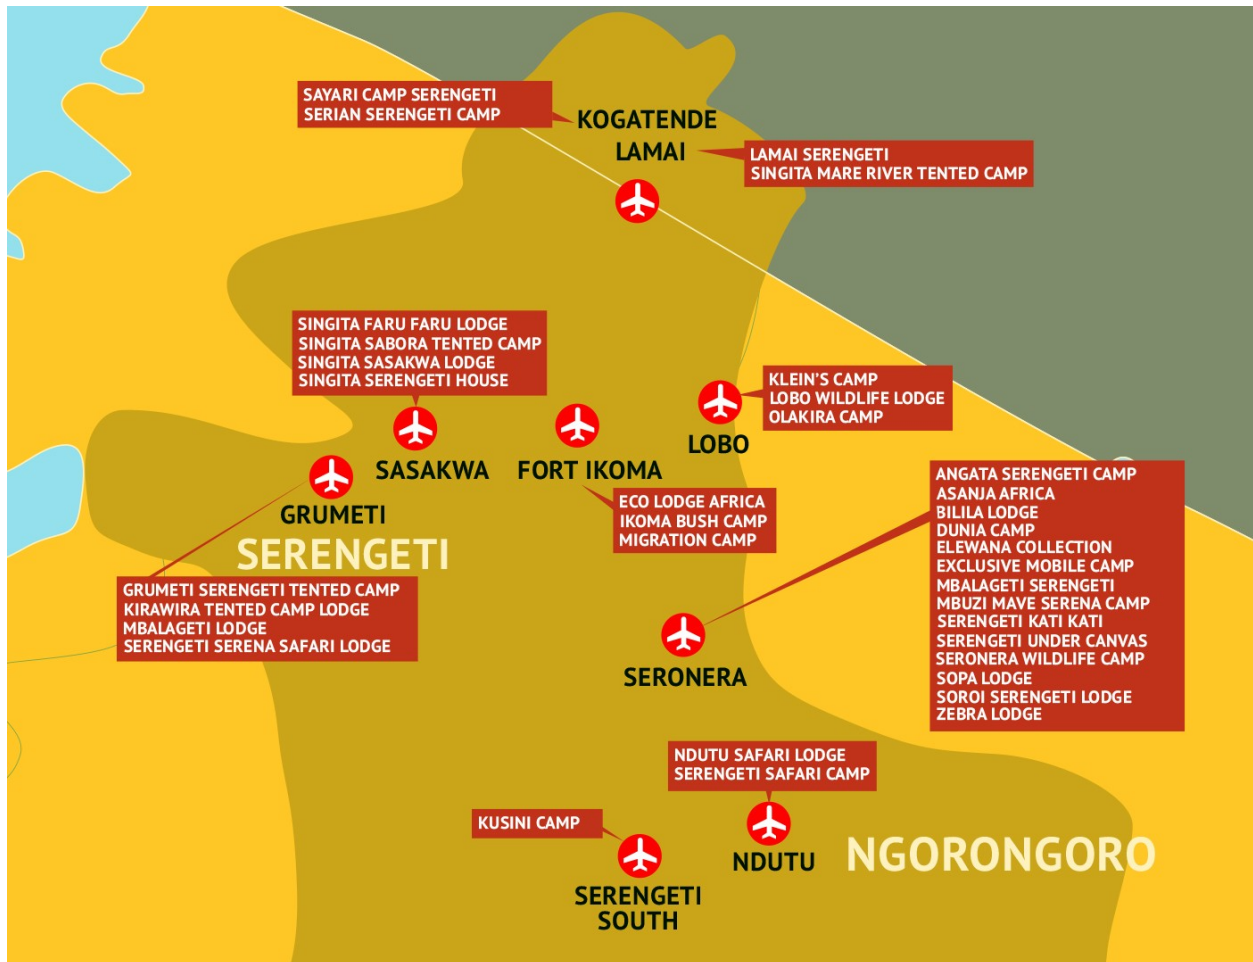

### Domestic flights

- USD 13 per person out of government airstrips
- USD 5 per person out of private and bush airstrips

### International flights from Tanzania

- USD 57 per person

NB: All departure taxes are subject to change in every government financial year.
